Contract # 64

J. M. Atkins

Kimberley Docks

NE. Sec 27-16-18.

Data available shows that 900 feet of  
8" tiles has been laid along the south  
side of this 40

acres affected 15.

I have not had opportunity to  
examine this land in high water  
season to determine the effect  
of the drainage system.

Cont. # 64.

N. E. <sup>4</sup> SW <sup>4</sup> Sec 27-11-18

Fifteen acres drained.

-900 feet of 8" tile has been laid along  
the south side of this 40

The land was dry down to shale  
at every test hole and the land has  
good crops of alfalfa.

The open drain that goes west  
from the tile line should go ~~soo~~ north  
along the west side of this 40.

The open drain seems to be causing  
seepage on the 40 just west of  
this one.

Plus 900' - 8"  
3570' - 8"  
Total 4470' - 8"
